Stacker capacity	up to 660 pcs (300gsm weight)	
Feed tray capacity	40 sheets(350gsm weight)	50 sheets(300gsm weight)
External dimensions	680×450×310mm	760×550×310mm
Packaging dimensions	650×580×380mm	
G.W. / N.W.	31KG/26KG	36KG/31KG
Power supply	100 to 240 V AC, 50/60 Hz (Auto switching)	
Humidity:	35 to 75% RH (non-condensing)	
Paper size	195mm ~ 216mm (width) × 279mm ~ 297mm (length) for CC-220	
	297mm ~ 330mm (width) × 420mm ~ 480mm (length) for CC-330	

## CC-330/220 Card Cutter

- Perforation and die cut (options)
- Creasing and die cut (options)
- Die cut

✓ Ideal for business cards, postcards, photos, greeting cards and tickets

## What makes the CC-330/220 special?

## Interchangeable Heads, One machine, numerous possibilities...

- *The Vulcan CC-330/220 is designed and constructed with the intention to enhance productivity through quick, high quality, accurate cuts to paper material.*
- *It is intended to simplify the cutting process while reducing operator stress at a critical point in product production and to provide safe and easy operations.*
- *The Vulcan Card Cutter has been introduced as a light weight table top cutter capable of cutting many types of paper and card stock. It is controlled by a micro-computer offering convenient cutting through preset layouts for consistency and ease of use.*
- *The cutter may also be adjusted to allow for custom sizes as needed.*
- *Paper feeding is automatic through a sole friction method.*
- *The blades are self-sharpening and do not require maintenance.*
- *Each Roller Blade Assembly is constructed to cut a specific width, multiple blade assemblies can be used with the same machine by moving two thumb screws, don't need any tools.*

## Perforation and die cut
